EDUCATION	<b>Ph.D. Computer Science</b> , Johns Hopkins University <i>Advisor: Michael Dinitz</i>	Sept 2020 - present
	<b>M.S.E. Computer Science</b> , Johns Hopkins University	Dec 2022
	<b>B.S. Mathematics</b> , Massachusetts Institute of Technology	Feb 2020
EXPERIENCE	<b>Research Intern</b> , MIT Theory of Computation Group <i>Advisor: Dr. Jayson Lynch</i> <ul style="list-style-type: none"><li>• Read and synthesized papers on gadget abstractions used to prove computational complexity of various games</li><li>• Rigorously defined and reconciled new and existing frameworks and gadget abstractions</li><li>• Solved open problems related to these papers, including designing algorithms and proving hardness results</li></ul>	June 2018 - May 2019
	<b>Autonomy Intern</b> , Northrop Grumman Aerospace Systems <i>Supervisor: Dr. Jonathan Las Fargeas</i> <ul style="list-style-type: none"><li>• Designed distributed algorithms for collaborative drones</li><li>• Implemented algorithms in C# using behavior trees in the Unity game engine</li></ul>	Jun–Aug 2017
	<b>Autonomy Intern</b> , Northrop Grumman Aerospace Systems <i>Supervisor: Dr. Jonathan Las Fargeas</i> <ul style="list-style-type: none"><li>• Created MATLAB models and Java programs to model complex offensive and defensive aircraft combat maneuvers</li></ul>	Jun–Aug 2016
PUBLICATIONS	with Michael Dinitz, Guy Kortsarz, and Zeev Nutov <b>Improved Approximations for Relative Survivable Network Design</b> <i>Workshop on Approximation and Online Algorithms (WAOA), 2023</i>	
	with Michael Dinitz and Guy Kortsarz <b>Relative Survivable Network Design</b> <i>International Conference on Approximation Algorithms for Combinatorial Optimization Problems (APPROX), 2022</i>	
AWARDS	<b>NSF Graduate Research Fellowship</b>	2022
	<b>GEM Fellowship</b> (declined)	2022
	<b>Graduate Fellowship for STEM Diversity</b> (declined)	2022
	<b>Wu and Zhang Endowed Graduate Student Fellowship</b>	2020
	<b>Google Computer Science Research Mentorship Program</b>	2019
	<b>Bloomberg Grace Hopper Travel Grant</b>	2016
	<b>Generation Google Scholarship</b>	2014
	<b>NCWIT Aspirations in Computing Award</b>	2013
SERVICE	<b>JHU CS Diversity and Inclusion Committee</b> , PhD Representative	2022

- Worked with department administrators to help start and facilitate the JHU CS PhD Mentor Hour series, where senior PhD students give advice to junior students on a variety of topics in a casual, discussion-based setting

**JHU CS Theory Seminar**, Co-Organizer

Spring 2022

**Conference Subreviewer**

- ESA 2023
- ICALP 2023
- SIROCCO 2023

**MIT Student Support Services**, Peer Mentor

2017-2019

- Provided guidance, emotional and logistic support for undergraduate students through their leaves of absence (particularly students leaving for health reasons)

TEACHING

**JHU WISE High School Program**, Co-Advisor and Mentor

Summer 2023

- Co-advised and mentored a Baltimore city high school student
- Introduced the student to graphs, graph algorithms, and basic graph theory concepts
- Guided the student through a programming project in which they implemented graph algorithms in Python

**Teaching Assistant**, Algorithmic Game Theory (JHU)

Spring 2022

TALKS

**Improved Approximations for Relative Survivable Network Design**

WAOA 2023, *Amsterdam, The Netherlands*

Sept 2023

**Relative Survivable Network Design**

APPROX 2022, *Online*

Sept 2022

SKILLS

$\text{\LaTeX}$ , Java (intermediate), Python (beginner), C# (beginner)
